AJAY KUMAR D

AI & Data Science Student – *Full-Stack Developer*

Kanchipuram, Tamil Nadu – +91 8072753848 – ajay872072@gmail.com – LinkedIn – GitHub

Career Objective

Motivated Artificial Intelligence and Data Science undergraduate with hands-on experience in full-stack development, web technologies, networking, databases, and machine learning. Seeking an opportunity to apply programming and problem-solving skills to develop practical software solutions and strengthen technical expertise.

Education

Jeppiaar Institute of Technology **2023 – 2027**
B.Tech in Artificial Intelligence and Data Science CGPA: 7.53

Anderson Higher Secondary School, Kanchipuram **2023**
Higher Secondary Certificate (HSC) 72%

Anderson Higher Secondary School, Kanchipuram **2021**
Secondary School Leaving Certificate (SSLC) All Pass

Technical Skills

Programming: Python, C (Basics), SQL, JavaScript

Frontend: React.js, HTML5, CSS3 **Web Development:** Basic Flask

Databases: MySQL, SQLite, MongoDB **Data Processing:** Pandas, NumPy

Machine Learning: Scikit-learn **Networking:** Networking Basics

Deployment: Vercel, Render, Aiven, MongoDB Atlas

Tools: VS Code, MS Excel, Windows Environment, Cisco Packet Tracer

Internship Experience

Full Stack Web Developer Intern – Softrate Technologies Pvt. Ltd., Chennai **Aug 2026 – Sep 2026**

- Contributed to frontend and backend web development, database integration, and API development for real-world web applications.
- Worked on API integration, debugging, problem-solving, and development tasks while contributing to organizational projects.

Projects

Personal Full-Stack Developer Portfolio
Developed a responsive personal portfolio website showcasing technical skills, education, projects, certifications, and achievements. Implemented project showcases, certificate viewing, resume access, responsive design, and a functional contact section.

FoodRescue – Surplus Food Redistribution Platform
Developed a full-stack platform connecting food providers with NGOs for surplus food redistribution. Implemented role-based access, food listings, search and claims, quantity management, pickup management, notifications, and admin monitoring.

University Hostel Management System
Developed a web-based hostel management system for student records, room allocation, complaints, and fee monitoring. Implemented an interactive dashboard and centralized database to improve data accuracy and reduce manual administrative work.

Network Monitoring and Analysis System with Cisco Network Simulation
Developed a network management system using Python, Flask, SQLite, and Cisco Packet Tracer. Implemented device inventory, connectivity testing, subnet calculation, ARP/MAC analysis, and simulations involving VLANs, trunking, inter-VLAN routing, DHCP, and MAC learning.

Certifications

- **University Hostel Management System – Industry Project** – TCS iON Applied Industry Projects (AIP), Tata Consultancy Services, 2026 (90 Hours)
- **Networking Basics** – Cisco Networking Academy, 2026
- **Teliport Season 3 – Participation** – Tata Elxsi, 2026
- **Learn SQL for Oracle Databases – Using Toad From Scratch** – Infosys Springboard, 2025
- **International Online Technical Workshop on Collaborative Intelligence** – FEDA, 2026

Languages

English: Intermediate Proficiency **Tamil:** Native Proficiency
